# In-Field **AI** apps for every sensor board
running in stealth mode with battery & no internet

AI Model Dev	Sensor Board	On-Device	Runs on Battery	BLE Monitor	Stealth Mode
AI model w/ sensor fused dataset	Detect anomalies & incessant issues.	On-device app with no data sharing	HW agnostic app on battery for months	Security with wired or BLE protocol	Stealth mode with no connectivity.

AI apps demo on sensor boards in stealth mode with battery & no internet

- ➤ **AI Vision:** detect/classify objects on camera.
- ➤ **AI Audio:** detect spoken words over microphones.
- ➤ **AI Mems:** Identify hand gestures like ASL words.

- ➤ **RF Sensing:** Cognitive SDR to detect human occupancy.
- ➤ **Online AI model Gallery:** Over 120 AI models 12 verticals.
- ➤ **Sensor Fusion:** Combine multiple sensors for cognitive apps.
